

KONECRANES SERVICE

CheckApp for Daily Inspections

Digitize your daily inspections

Konecranes CheckApp for Daily Inspections has been designed to help crane users quickly and easily record their findings when performing pre-shift and/or pre-lift inspections.

It gives you a digitalized and cost-effective way for recording and retrieving daily inspection data that can be used for internal auditing and compliance.

Daily inspections are statutory requirement in several countries.

The daily inspection is a user's – or crane operator's – own assessment of the condition of an asset and environment for safe use. It is not an expert's examination of the condition of an asset or component. Konecranes CheckApp for Daily Inspections follows

the guidance set in the ISO 9927 standard and in applicable statutory regulations.

The app can be downloaded for free on the Apple AppStore and from Google Play for Android devices. Your personnel can use their own or shared company-provided devices to perform the daily inspections.

DATA ENTRY
Simple and fast data entry: pass or fail.

EASY-TO-USE
Easy to access, clear instructions on what and how to check.

LESS IS MORE
Less cost than in paper form process. Less errors. Less inspections not done.

LOG IN ONCE
With your KONECRANES credentials you are ready to go. The app remembers who you are.

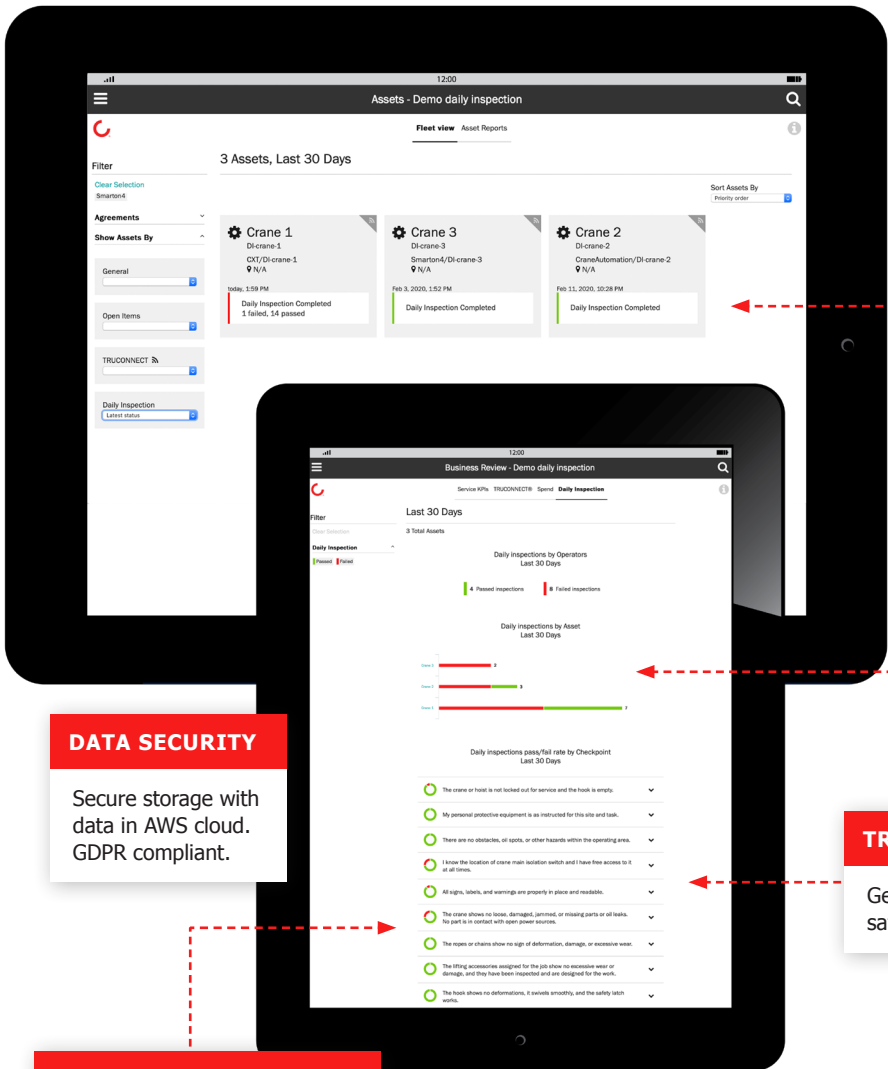

15 CHECKPOINTS
15 mandatory checkpoints, compliant with local regulations. Additional location-specific customer checkpoints can be added.

EASILY REPORT DEFECTS
Add photos and text to report a defect.

FIND ASSETS EASILY
Favorites are at the top, see only those that are inspectable.

Data security

The CheckApp mobile application and your KONECRANES have been awarded ISO/IEC 27001:2013 certification for information security management. The ISO/IEC 27001 certificate demonstrates a commitment to proactively manage the information security of Konecranes digital services and ensure compliance with legal and customer requirements.

CHECK INSPECTION STATUS
Quickly see which assets have been inspected before a work shift begins.

SEAMLESS INTEGRATION
All your maintenance, service agreement, and daily inspection information on one easily-accessible site.

SUMMARY VIEWS
Easy to identify assets and/or practices that need attention.

TRANSPARENCY
Get a good view of asset or safety procedure issues.

DATA SECURITY
Secure storage with data in AWS cloud. GDPR compliant.

DETAILED RECORDS
Complete, detailed, up-to-date records for auditing needs.

- BENEFITS**
- Satisfies regulatory requirements helping you stay compliant
 - Allows for easy and reliable auditing of performed daily inspections
 - Easy-to-use mobile app can help motivate users to perform daily inspections on a regular basis
 - Assists with timely recognition of potential asset-specific safety or production risk issues
 - Assists in identifying workplace improvement opportunities
 - Assists in identifying needs for operator training as well as deviations in following local safety and other site rules

Quick and easy access to inspection records

Daily inspection records are accessible on the yourKONECRANES customer portal, where combined with maintenance history and condition data collected from selected components with TRUCONNECT Remote Monitoring, provides a comprehensive view of the condition of an asset in one easily accessible place. This data assists in planning maintenance actions and provides an audit trail of performed Daily Inspections.

The Daily Inspection view in yourKONECRANES shows daily inspection details as well as useful summary views. Daily inspection details – revealing who performed the inspection, when it was performed, what deficiencies were reported – are accessible through the activity, overview and asset fleet views. A detailed summary for the selected timeframe is provided in the Business Review tab.
